

Notes

This mapping displays the settlements which have historic flood records, represented as a point on a map, alongside the Environment Agency's Historic Flood Map.

The size of this point reflects the frequency of flooding recorded at that settlement. The historic flood records have been informed by previous SFRAs prepared for the commissioning authorities, 2011 Leicester City PFRA, 2011 Leicestershire County Council PFRA, Section 19 reports and additional historic flood information provided by the commissioning authorities and the Fire and Rescue Service.

Anglian Water's DG5 register and Severn Trent Water's Historic Flood Risk Register (HFRR) data have not been used to inform the mapping in Appendix B due to the sensitivity and the licencing terms of the datasets. The risk registers have been referred to in Section 6.7.1 of the main report.

Key Plan

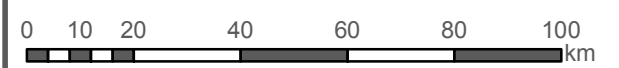

Legend

- SFRA study area boundary
- Authority boundary
- Environment Agency Historic Flood

Historic Flood Records

Total number of flood events recorded at settlement

- 1
- 1 - 2
- 2 - 4
- 4 - 9
- 9 - 15
- 15 - 29
