

**Notes**

Flood defence information shown on this map is based on the raised flood defence GIS file provided by the Environment Agency.

The current standard of protection may differ from the design standard of protection.

Where the design standard of protection has been recorded as 0, it is assumed that this is unknown.

The flood defences shown on this map do not represent formal flood defences.

This map may not include all defences within the study area.

Not all defences may be visible at this scale.
